

PRASEDIUM
DEVICE SOLUTIONS

SYNCHRONIZED
FACIAL SKIN +
MUSCLE PLATFORM

PRASELIFT

Support the framework
of the face from the
inside out.

20 MIN*
FULL-FACE
EXAMPLE

NEEDLE-FREE
APPROACH

NON-INVASIVE
EXPERIENCE

FACIAL STRUCTURE, REIMAGINED

Tone the framework. Condition the skin.

PraseLift combines targeted facial muscle stimulation with controlled thermal energy to address facial support and skin quality in one synchronized treatment concept.

01 Two technologies together

Muscle stimulation and controlled thermal energy are applied within one provider-directed facial protocol.

02 Targeted facial zones

Applicators are configured for the forehead, cheeks and submental area.

03 Hands-free placement

Facial patches and supports are designed to maintain consistent positioning during the treatment cycle.

04 Needle-free experience

The manufacturer positions the platform as non-invasive, injection-free and without planned downtime.

FULL FACE
MULTI-ZONE
APPLICATION

HANDS-FREE
SUPPORTED
APPLICATORS

NO NEEDLES
OR FILLERS

TWO LAYERS, ONE TREATMENT

Muscle engagement meets skin conditioning.

Manufacturer materials describe stimulation of selected facial muscles while controlled heat supports collagen- and elastin-focused skin remodeling.

MUSCLE TARGETED STIMULATION

Protocols are designed around muscles including the frontalis and zygomatic groups, with attention to facial contour and support.

SKIN CONTROLLED THERMAL ENERGY

Thermal energy is positioned to support collagen- and elastin-focused remodeling within a professional treatment plan.

*The original manufacturer brochure presents a 20-minute full-face example. Treatment time, settings, patient suitability and outcomes vary and must follow current labeling.

DESIGNED FOR FACIAL PRECISION

Targeted tools. Guided placement.

The platform pairs an angled interface with supported applicators for a controlled, multi-zone facial workflow.

01

Forehead patches

Dedicated applicators are positioned for controlled work across the forehead region.

02

Cheek patches

Mid-face placement supports protocols focused on the zygomatic muscle groups and facial contour.

PRACTICE POTENTIAL

A multi-zone approach to facial rejuvenation.

PraseLift can support provider-designed facial programs centered on muscle tone, facial support and the appearance of skin quality.

FACIAL PROGRAM POTENTIAL

01 Facial muscle tone

02 Forehead-focused protocols

03 Cheek + mid-face support

04 Lower-face + submental contour

05 Overall facial rejuvenation

Specifications are based on the supplied manufacturer brochure and should be confirmed against the exact shipping configuration.

*The original manufacturer brochure presents a 20-minute full-face example. Treatment time, settings, patient suitability and outcomes vary and must follow current labeling.

TREATMENT WORKFLOW

01

CONSULT & PLAN

Assess patient goals and design a custom protocol by facial zones.

02

PREPARE & PLACE

Position applicators on the forehead, cheeks and submental area.

03

RUN PROTOCOL

Start the synchronized skin + muscle protocol. Treatment example is 20 minutes for full face.*

04

REMOVE & REVIEW

Remove applicators, review post-care and plan next steps.

20 MINUTE*
FULL FACE EXAMPLE

*Treatment time, settings, patient suitability and outcomes vary and must follow current labeling.

INITIAL PHASE

4 TREATMENTS

Once per week for 4 weeks to build foundation.

MAINTENANCE PHASE

MONTHLY

Once per month to maintain results.

LONG-TERM RESULTS

Consistent protocols can help support ongoing muscle tone and skin quality.

DESIGNED TO SUPPORT YOUR PRACTICE

EXPAND YOUR OFFERINGS

Add a high-demand, non-invasive solution that complements existing services.

ATTRACT NEW PATIENTS

Visible improvements in tone and skin quality can drive new consultations.

INCREASE REVENUE

Flexible pricing and package options support strong revenue potential.

BUILD LOYALTY

Deliver consistent results that encourage repeat visits and referrals.

EASY TO INTEGRATE

Hands-free design and short treatment time make it easy to integrate into your day.

SYNCHRONIZED SKIN + MUSCLE PLATFORM

The future of facial rejuvenation is **synchronized**.

PraseLift combines targeted muscle stimulation with controlled thermal energy to support facial support, contour and the appearance of skin quality—all in one efficient, non-invasive treatment experience.

CLINICALLY POSITIONED. PRACTICE READY.

DUAL-LAYER APPROACH

Addresses facial muscles and skin quality in a single, synchronized treatment.

TARGETED ZONES

Forehead, cheeks and submental applicators support comprehensive facial protocols.

HANDS-FREE DESIGN

Supported applicators maintain consistent placement throughout the treatment cycle.

NEEDLE-FREE EXPERIENCE

Non-invasive, injection-free and with no planned downtime.

SAFETY, COMFORT & THE PATIENT EXPERIENCE

- ✓ **Non-invasive, needle-free technology**
No injectables. No downtime.
- ✓ **Comfortable treatment experience**
Controlled energy with hands-free applicators.
- ✓ **Designed for consistency**
Applicators help maintain proper placement throughout the cycle.
- ✓ **Provider supervised**
Full control of settings, timing and treatment plan.

NEEDLE-FREE

No injections.
No fillers.

NO DOWNTIME

Return to daily activities right away.

COMFORT FOCUSED

Built for a more comfortable treatment experience.

OUR COMMITMENT TO YOUR PRACTICE

PraseLift is engineered to help you deliver visible improvements in facial tone, contour and skin quality—while growing your practice with innovative, in-demand treatments.

*Elevate your practice.
Elevate your patients.*
